Software Engineer | Full-Stack Developer | ME☐RN Stack Developer

OBJECTIVE

Dedicated Junior Software Engineer with over 2 years of combined hands-on experience in Full-Stack development. High-achieving undergraduate at Aqaba University of Technology and First-in-Governorate Diploma holder in Information Security. Possesses a strong command across a comprehensive range of modern programming languages and frameworks. Available for Full-time or Part-time roles, offering adaptability to new technologies and a commitment to building secure, scalable web solutions.

Core Competencies

- Analytical Thinking & Debugging: Strong ability to analyze complex code issues and implement efficient solutions.
- Agile Collaboration: Experienced in working within Scrum frameworks and cross-functional teams.
- Requirement Analysis: Skilled in translating client needs into technical specifications and actionable tasks.
- Time Management & Prioritization: Proven ability to balance academic studies with professional deadlines under pressure.
- Continuous Learning: Passionate about keeping up-to-date with emerging technologies (Next.js, Security trends).
- Technical Communication: Ability to explain technical concepts to non-technical stakeholders and clients.

Technical Knowledge

- Programming Languages: JavaScript, PHP, C++, HTML5, CSS3, SQL.
- Frameworks & Libraries: Next.js, MUI, React.js, Laravel, Express.js, Tailwind CSS, Bootstrap.
- Databases: PostgreSQL, MySQL, SQL Server.
- Tools & Platforms: Git, GitHub, AWS S3, Figma, WordPress.
- Security & Networking: Secure Coding Practices, Web Application Security, Network Infrastructure (Cisco Basics), Windows Server.

Experience

1- Orange Coding Academy (7 Months)

Full-Stack Web Development Trainee (Hybrid – On-site & Online)

Aqaba, Jordan
May 2024 – Nov 2024

- Full-Stack Mastery: Developed end-to-end applications using Figma, React, PHP (Laravel), and MySQL, ensuring seamless UI/UX and robust backend logic.
- Agile Implementation: Delivered individual and group projects within Scrum frameworks, focusing on clean code, debugging, and iterative development.
- Professional Growth: Completed intensive technical evaluations and soft skills workshops led by industry experts.
- Accreditation: Certified by Princess Sumaya University for Technology (PSUT) and Simplon (France) after 7 months of hybrid (on-site & online) training

2-A-Tech – Full-Time (1 year and 3+ months)

Full-Stack Web Development (Remote)

Jordan
Nov 2024 – Present

- Full-Stack Development: Built scalable web applications using Next.js and React, architecting robust backends with Node.js/Express and managing PostgreSQL/MySQL databases.
- Advanced Integrations: Integrated Square Payment Gateway for secure transactions and implemented WebSockets for real-time communication and data streaming.
- API & Database Management: Developed secure REST APIs, handled database migrations/seeding, and optimized multilingual support (i18n) for global accessibility.
- Performance Optimization: Enhanced dashboard loading speeds and optimized database queries, while maintaining detailed technical documentation.
- Professional Reliability: Demonstrated flexibility in high-pressure environments, utilizing strong debugging and problem-solving skills to meet tight project deadlines.

Education

1-Aqaba University of Technology

Aqaba, Jordan
2025-2027 (Expected)

Bachelor in Software Engineering

2-Al-Balqa Applied University (86.5 – Excellent)

Aqaba, Jordan
2022-2024

Diploma in Information and Network Security   First in the Governorate
