PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 2 years of full-stack development experience. Proficient in TypeScript, Next.js, React, Node.js, and secure web application design. Recognized as First-in-Governorate in Information Security, combining strong coding skills with robust security practices to build scalable, high-performance solutions.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, C++, HTML5, CSS3, SQL.
- **Frameworks & Libraries:** Next.js, React, Node.js, Express.js, Laravel, Tailwind CSS, Material UI (MUI), Bootstrap.
- **Databases & ORM:** PostgreSQL, MySQL, SQL Server, Sequelize, MongoDB.
- **Cloud, Tools & DevOps:** AWS, Azure, Git, GitHub, CI/CD, Figma, WordPress.
- **Security & Architecture:** RESTful APIs, OOP, Secure Coding Practices.

WORK EXPERIENCES

Full-Stack Software Engineer | A-Tech

Nov 2024 – Mar 2026 | JORDAN (Remote)

- Spearheaded the development of multiple enterprise SaaS platforms as a core contributor, utilizing Next.js, React, and TypeScript within a fully remote Agile environment.
- Engineered robust backend systems and APIs using Node.js, Express, and Laravel.
- Optimized PostgreSQL and MySQL databases using Sequelize ORM, accelerating query execution and significantly reducing dashboard load times.
- Enhanced user experience and client success by integrating Square payments and i18n, alongside providing technical documentation and direct user training for smooth onboarding.

Full-Stack Web Development Trainee | Orange Coding Academy

May 2024 – Nov 2024 | Aqaba, Jordan (Hybrid)

- Developed 5+ full-stack web applications, including a comprehensive end-to-end capstone project, using React, Laravel (PHP), and MySQL during an intensive 900+ hour hybrid training program (Certified by PSUT & Simplon).
- Collaborated within Agile/Scrum teams to build responsive, OOP-driven web solutions using JavaScript, HTML, and WordPress, ensuring seamless UI/UX design and robust backend logic.

PROJECTS

Scalable Marketplace & Classifieds Ecosystem (SaaS) | Next.js, Node.js, CQRS

- Spearheaded the development of a high-performance B2C SaaS classifieds platform, delivering an SEO-optimized Next.js marketing portal and a robust centralized backend infrastructure.
- Engineered a scalable web-based architecture utilizing the CQRS pattern to handle high-traffic listing interactions and secure cloud media storage on Azure.
- Developed a comprehensive Admin CMS with an automated listing approval workflow and complex subscription logic to manage user quotas, billing cycles, and media limits.

Automated Subscription & Fulfillment Platform | Next.js, PostgreSQL

- Developed a high-performance, single-page application (SPA) using Next.js to automate digital product delivery and manage user subscriptions.
- Optimized system architecture for cost-efficiency by designing a text-based Transaction ID verification workflow, bypassing the need for heavy cloud storage.
- Built a secure Admin Dashboard with automated workflows, enabling instant email dispatch of inventory codes upon approval, backed by strict server-side validation to prevent SQL injection.

Enterprise CRM & Sales Management SaaS (B2B) | Next.js, Node.js, PostgreSQL

- Co-developed a comprehensive B2B SaaS CRM to streamline enterprise-level client interactions, sales tracking, and internal task delegation.
- Designed secure system architecture and robust backend logic, ensuring high performance and data integrity for proprietary corporate information.
- Implemented dynamic dashboard analytics, providing stakeholders with real-time insights into sales performance and team productivity.

EDUCATION

- **Bachelor's Degree in Software Engineering (AUT).**
- **Diploma in Information Security and Networks (BAU) | GPA: Excellent (First in the Governorate).**
