Software Engineer | Frontend Developer

PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with intensive experience building fast, scalable, and SEO-optimized web applications. Highly proficient in Next.js, React, and TypeScript. Proven track record of improving Core Web Vitals, implementing SSR/SSG architectures, and delivering high-performance solutions.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, C++, HTML5, CSS3, SQL.
- **Frameworks & Libraries:** Next.js, React, Node.js, Express.js, Laravel, Tailwind CSS, Material UI (MUI), Bootstrap.
- **Databases & ORM:** PostgreSQL, MySQL, SQL Server, Sequelize, MongoDB.
- **Cloud, Tools & DevOps:** AWS, Azure, Git, GitHub, CI/CD, Figma, WordPress, Vercel.
- **Security & Architecture:** RESTful APIs, Object-Oriented Programming (OOP), Secure Coding Practices, Web Application Security, Windows Server.
- **Performance & SEO:** Core Web Vitals, SSR / SSG, Web Performance Optimization

EXPERIENCE

Software Engineer | A-Tech

Nov 2024 – Feb 2026 | Remote, Jordan

- Spearheaded the development of enterprise-level web applications, acting as a core contributor across the company's entire project portfolio using Next.js, React, and TypeScript to ensure efficient project delivery.
- Optimized application architecture and implemented Next.js SSR/SSG features, significantly reducing dashboard load times and improving Core Web Vitals and SEO metrics.
- Engineered robust backend systems and secure RESTful APIs using Node.js, Express, and Laravel, leveraging AWS and Azure cloud services to ensure high availability and scalable infrastructure.
- Optimized database architecture across PostgreSQL and MySQL using Sequelize ORM, accelerating complex query execution and significantly reducing dashboard load times.
- Integrated Square Payment Gateway for secure transactions, and implemented multilingual support (i18n), greatly expanding accessibility for a broader user base.
- Provided dedicated technical support and training to clients, ensuring smooth system onboarding and empowering users to effectively utilize the software solutions.
- Excelled in a fully remote Agile environment, demonstrating strong self-management, high professional ethics, and proactive communication to consistently deliver project milestones on strict deadlines, while maintaining detailed technical documentation.

FULL-STACK WEB DEVELOPMENT TRAINEE | ORANGE CODING ACADEMY MAY 2024 – NOV 2024 | AQABA, JORDAN (HYBRID)

- Developed 5+ full-stack web applications (collaborative and individual) using React, PHP (Laravel), and MySQL, directly applying new technologies into fully functional products.
- Designed and deployed a comprehensive individual capstone project, demonstrating end-to-end mastery of seamless UI/UX design and robust backend logic.
- Collaborated within Agile/Scrum teams of 4-5 developers to build responsive projects using WordPress, HTML, JavaScript, and PHP, adhering strictly to OOP principles.
- Completed an intensive 7-month (over 800 hours) hybrid training program, earning official certifications from Princess Sumaya University for Technology (PSUT) and Simplon.

PROJECTS

Interactive 360-Degree Image Viewer | Next.js, React, Three.js, TypeScript

- Engineered a high-performance, interactive 360-degree image viewer using Next.js and Three.js, demonstrating mastery of complex frontend rendering and advanced UI architecture.
- Optimized client-side rendering logic and 3D asset loading to ensure fluid, lag-free user interactions, strictly adhering to clean code and scalable development practices.

Comprehensive CRM System | Next.js, Node.js, Express, PostgreSQL

- Co-developed an enterprise-level Customer Relationship Management (CRM) system to streamline client interactions, sales tracking, and internal task delegation.
- Designed the system architecture and robust backend logic, ensuring high security and performance for proprietary corporate data.

Full-Featured E-commerce Store | Next.js, React, Node.js, MySQL, Stripe API

- Architected a highly scalable, SEO-optimized e-commerce platform leveraging Next.js Server-Side Rendering (SSR) and Static Site Generation (SSG) to achieve exceptional Core Web Vitals and lightning-fast page loads.
- Built an intuitive, user-centric shopping experience, optimizing dynamic routing and implementing "Variation IDs" for complex order tracking without compromising frontend performance.

Salonak - Booking Platform | Laravel (MVC), MySQL

- Engineered a full-stack booking web application connecting beauty salons with customers, utilizing the MVC architectural pattern.
- Developed an interactive dashboard and integrated features for real-time appointment scheduling, service comparison, and managing user-generated reviews.

EDUCATION

- **Diploma in Information and Network Security | Al-Balqa Applied University 2022 - 2024 | Aqaba, Jordan**

Honors: Graduated with an "Excellent" rating (86.5%) and ranked First in the Governorate.
