Software Engineer | Full-Stack Developer

PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 2 years of full-stack development experience. Proficient in Next.js, React, Node.js, and secure web application design. Recognized as First-in-Governorate in Information Security, combining strong coding skills with robust security practices to build scalable, high-performance solutions

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, PHP, C++, HTML5, CSS3, SQL.
- Frameworks & Libraries: Next.js, React, Node.js, Express.js, Laravel, Tailwind CSS, Material UI (MUI), Bootstrap.
- Databases & ORM: PostgreSQL, MySQL, SQL Server, Sequelize.
- Cloud & Tools: AWS, Azure, Git, GitHub, Figma, WordPress.
- Security & Architecture: RESTful APIs, Object-Oriented Programming (OOP), Secure Coding Practices, Web Application Security, Windows Server.

EXPERIENCE

Software Engineer | A-Tech

Nov 2024 – Feb 2026 | Remote, Jordan

- Spearheaded the development of enterprise-level web applications, acting as a core contributor across the company's entire project portfolio using Next.js, React, and TypeScript to ensure efficient project delivery.
- Engineered robust backend systems and secure RESTful APIs using Node.js, Express, and Laravel, leveraging AWS and Azure cloud services to ensure high availability and scalable infrastructure.
- Optimized database architecture across PostgreSQL and MySQL using Sequelize ORM, accelerating complex query execution and significantly reducing dashboard load times.
- Integrated Square Payment Gateway for secure transactions, and implemented multilingual support (i18n), greatly expanding accessibility for a broader user base.
- Provided dedicated technical support and training to clients, ensuring smooth system onboarding and empowering users to effectively utilize the software solutions.
- Excelled in a fully remote Agile environment, demonstrating strong self-management, high professional ethics, and proactive communication to consistently deliver project milestones on strict deadlines, while maintaining detailed technical documentation.

Full-Stack Web Development Trainee | Orange Coding Academy
May 2024 – Nov 2024 | Aqaba, Jordan (Hybrid)

- Developed 5+ full-stack web applications (collaborative and individual) using React, PHP (Laravel), and MySQL, directly applying new technologies into fully functional products.
- Designed and deployed a comprehensive individual capstone project, demonstrating end-to-end mastery of seamless UI/UX design and robust backend logic.
- Collaborated within Agile/Scrum teams of 4-5 developers to build responsive projects using WordPress, HTML, JavaScript, and PHP, adhering strictly to OOP principles.
- Completed an intensive 7-month (over 800 hours) hybrid training program, earning official certifications from Princess Sumaya University for Technology (PSUT) and Simplon.

EDUCATION

- **Bachelor in Software Engineering | Aqaba University of Technology**
2025 – 2027 (Expected) | Aqaba, Jordan
- **Diploma in Information and Network Security | Al-Balqa Applied**
University 2022 – 2024 | Aqaba, Jordan

Honors: Graduated with an "Excellent" rating (86.5%) and ranked First in the Governorate.
